

VIRTUAL

**19 – 22
April
2021**

GAS FEST

Workshops

Video recording

3 min pre-recorded scene-setter
available for viewing

**FROM
12 APRIL**

**MON
19 APRIL**

**1400
↓
1530**

Workshop 1:
**What does it mean
to be 'future-proof'?**

What are our options when it comes to
future-proofing the maritime industry?

**TUES
20 APRIL**

**0900
↓
1030**

Workshop 2:
**What lessons have we learnt
from LNG's voyage?**

What important lessons can we learn and apply from the
rollout and ongoing use of LNG as a marine fuel?

**1400
↓
1530**

Workshop 3:
**2021 Lifecycle Analysis
(LCA) study results – where
to from here for LNG?**

What do results of the recent LCA study (jointly commissioned
by SGMF and SEA-LNG) tell us about emissions from the
use of LNG as marine fuel?

Workshop 4:
**Are we forgetting LNG's
'cleaner cousins' in the race
to future fuel options? (I)**

What role can renewable hydrocarbon fuels play and what needs
to happen for them to be commercially and practically viable?

**0900
↓
1030**

**WED
21 APRIL**

**1400
↓
1530**

Workshop 5:
**Are we forgetting
LNG's 'cleaner cousins'
in the race to future
fuel options? (II)**

What role can renewable hydrocarbon fuels
play and what needs to happen for them
to be commercially and practically viable?

Workshop 6:
**2021 Lifecycle Analysis
(LCA) study results –
where to from here for
Alternatives to LNG?**

What do results of the recent LCA study (jointly
commissioned by SGMF and SEA-LNG) tell us
about emissions from the *use of
alternatives to LNG* as marine fuel?

**0900
↓
1030**

**THURS
22 APRIL**

**1400
↓
1430**

**"Live" closing
plenary**

**OUTCOMES
CONTINUE AFTER
THE EVENT!**
