

VIRTUAL

**2-5
November
2020**

GAS FEST Workshops

Video recording

30 min pre-recorded plenary
available for viewing.

**FROM
26 OCT**

**MON
2 NOV**

**1400
↓
1530**

Workshop 1: Debunking the myths

How can we more effectively separate fact
from fiction in the current media landscape
around gas as marine fuel?

Workshop 4: Infrastructure development

What is needed are partnerships for green investments that bring
together operators, shippers, bunker fuel suppliers,
and port authorities.

**WED
4 NOV**

**1400
↓
1530**

Workshop 5: Designing for success

What are the new-build vs. retrofit design
considerations we haven't yet thought
of but should be?

**TUES
3 NOV**

**1000
↓
1130**

Workshop 2: What does green really mean?

The maritime fuel story must be told in an open, clear and transparent way.

**1400
↓
1530**

Workshop 3(I): CTRL+ALT+FUEL

There's a lot of discussion around
alternative fuels at the moment including
hydrogen, ammonia and methanol.

Workshop 3(II): CTRL+ALT+FUEL

There's a lot of discussion around
alternative fuels at the moment including
hydrogen, ammonia and methanol.
